We Are Fashion Revolution

Fashion Revolution is a global movement created in 2013 following the tragedy of Rana Plaza in Bangladesh in 2013, with a death toll of more than 1100 human lives. Our vision for the future is a global fashion industry that conserves and restores the environment and values people over growth and profit. We are here to tell a different story about the clothes we wear.
You can read our Manifesto here.

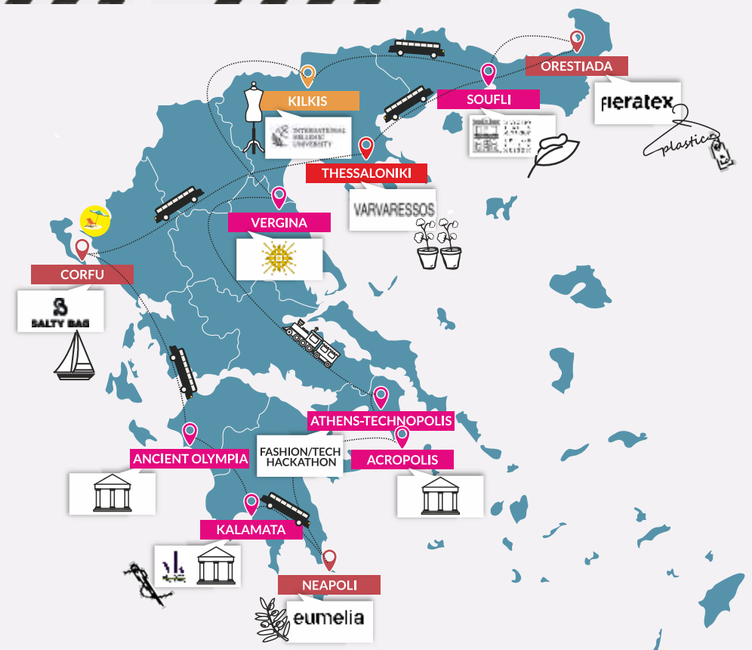

Our Vision

Our vision is to create an educational hub, to:

1. Attract global experts, educators, policy makers, fashion designers, business schools and people passionate about environmental and global issues, such as human rights.
2. Educate the future leaders of sustainable fashion & support entrepreneurs with sustainable start-up ideas in any stage of the supply chain and sector of the textile industry.
